

## Join the Movement →

To our friends and community,

With love and humbleness we share with you this newsletter that has been co-created by our members.

### Connect, collaborate and grow for a better future.

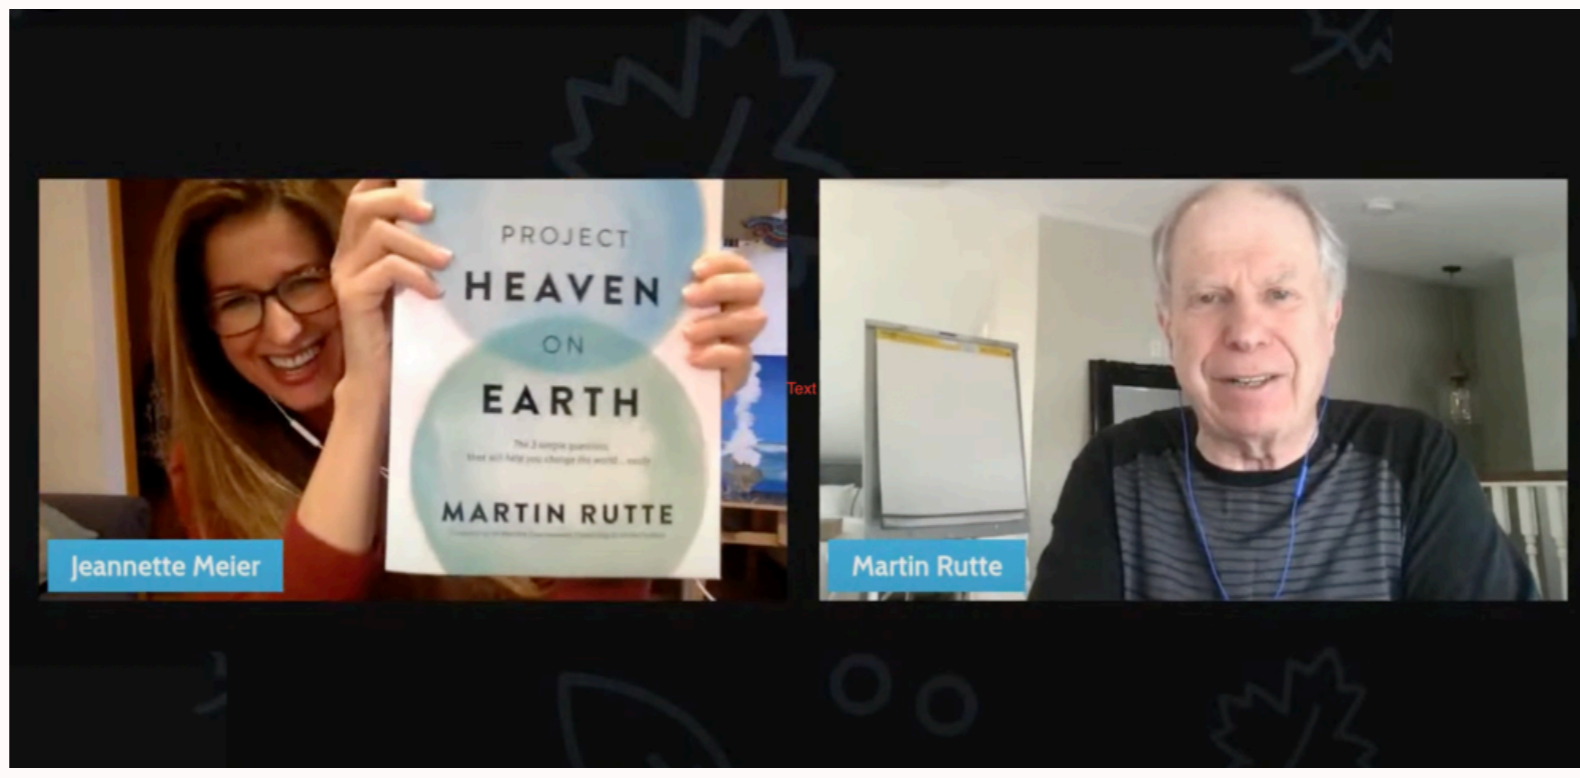

"People with various backgrounds and personalities enrich the community. They bring to the table a vast amount of ideas and wisdom. Our divergent world views and lenses mean that we all approach the exact problem slightly differently. In times of crisis, people come together to support one another - something I am sure many of us have seen. In the community, we are strong. It is a beautiful cycle of learning and teaching, as well as supporting. We all have days that are more challenging than the others and perhaps, even seem impossible. On those days, you can lean on your community who believe in you and genuinely care about you. They are there to hold your hand - even if it is only virtually.

It is time to come together. We can change so much by simply spreading love & light as a community. Raising the vibration of the Earth, and the whole universe. To experience the power and love of a community wrapping its arms around you, or to be a part of the wrapping yourself, is one of this life's precious blessings."

by *Maarja Jõemägi*, who we proudly present to you as our Community Manager

### Society needs more people like you!

[Martin Rutte](#), creator of "Project Heaven on Earth" and author of the book with the same name, visited our community this month. The above pic is from the [LIVE Talk](#) that Martin and Jeannette Meier held the day before his visit. We enjoyed sharing time with him and discovering his Power of Being, in togetherness!

### Dare to dream as big as Mandela!

#### Connect, Practice, Experience and Expand...

"In this PiMOV community there's so much wisdom flowing and shared. It's a real treasure cave.

Yet more than anything, we value the wisdom that's already inside of us to let that internal compass guide us forward in our positive impact projects.

So in our Expand Sessions, we collectively go inwards to a sacred space inside ourselves to reflect and to listen to our own voice, feelings, thoughts and ideas.

Hosting these spaces of inner exploration feels much like launching various moon landings from earth's control room - not like I've done that before, but it's what I imagine... Everyone there is voyaging, and potentially discovering, new worlds within themselves. When we arrive back in the room together we share our findings and experiences as if we're showing each other new rocks, golden nuggets, diamonds... But of course, the most special moment is when we take off our space suits and show our true selves without filters, apologies or conditions.

Arriving at our power of being.  
#togetherwearelimitless"

#### Meet our Members!

PIMOVERs are to be found all around the world. Luckily some of them can meet in person and hashtag their pics in our community platform as #wearereal 😊

[Helena Carrizosa](#) and [Francesco Carvelli](#) met in London, UK. We take the opportunity here to congratulate Francesco for his birthday this month!

These are [Marsaye Treen](#) and [Mabel Vonk](#) in Canada. Both, are birthday ladies from March and here they met to celebrate!

#### We'd love to Welcome you at PiMOV!

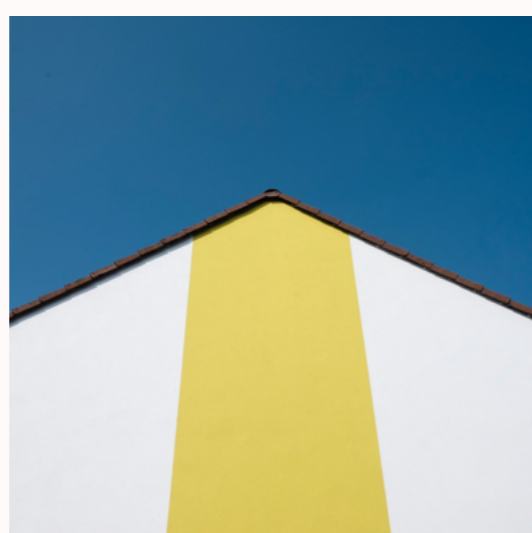

When you register to PiMOV, the space where you join first is "PiMOV-Welcome", a space meant to introduce you to who we are and what we do, prior to joining our main community.

By first accessing this space, you have the opportunity to get acquainted to the Mighty Networks™ platform where we host our community and to get to know the way of being of PiMOV - from the inside-out. There, you'll get at least 1 PiMOV Q&A session and 1 PiMOV Coffee session where to meet your future fellow members. We acknowledge that it takes time to unlearn the learned and become used to being free and safe to be who you are and create what you love.

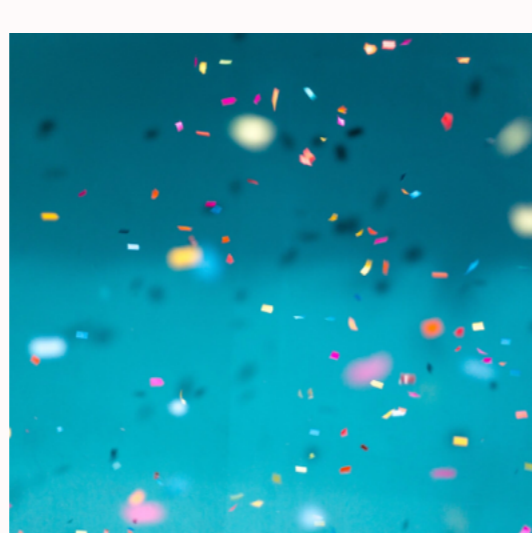

Anyone wanting to know more about PiMOV can join us at any point in time. We are here for you. We want you to co-create with us the soonest possible!
